

ITCZ-MIP

Key question: How do changes in ITCZ width affect global climate?

Team members: Angie Pendergrass, Mike Byrne, Oliver Watt-Meyer, Penny Maher, Mark Webb

Progress since CFMIP2018:

- Experimental protocol successfully developed
- Initial simulations available
- Initial publication in prep (protocol description, initial results)

Requests from the community (Join us!)

- Contribute model simulations
- Analyze simulations
- Join the coordinating team
- Contact Angie (apgrass@ucar.edu) or Mike Byrne (byrnem6@tcd.ie)

Models with simulations

- GFDL-AM2.1
- CESM1
- CESM2
- Isca

Models with agreed to contributions

- Met Office UM
- IPSL
- MIROC
